

Chucky Taper Arbor Instructions

In order completely utilize the Chucky Taper Arbor you need to have a Live Center with removable cone.

Simply remove the cone and thread the Chucky Taper Arbor onto the Live Center.

Another option is to mount it onto our optional 3” MT2 Arbor. This option can only be used in the headstock. When mounting the MT2 Arbor into your headstock **GENTLY tap it with a wood or nylon mallet to ensure that it is properly “seated” in your spindle.**

DO NOT put the MT2 Arbor into your Tailstock as it will not turn and it could cause damage to your Tailstock.

You can use the Chucky Taper Arbor with or without the Red Caps. We suggest using the caps when you want to protect the finish of your workpiece. Only use enough pressure to safely hold the workpiece – too much pressure or a rough surface will tear the caps.

Please remember that if you have any questions concerning the use of your Rubber Chucky product to please either email us sales@rubberchucky.com or call us at 248.877.0828.

The safe use of any Rubber Chucky product is entirely the responsibility of the purchaser/user. If you do not agree with this, please return the Rubber Chucky product immediately for a full refund.
